Setup Preps

- 1. Click Setup Options
- 2. Click Preferences

- Choose Total Points or Weighted Percentages
- Choose Report Cycle
- You must decide how you are going to weight your grades. ****If you choose Assignment type weights, you must use all of the assignments that you put in your Preps. If you do not use all the assignments, then NCWise redistributes the percentage that that is not in use thought the remaining assignments. You can not control where the percentage will be distributed****
- Do not change the default order of Assignments by due date from Ascending. ****If you use descending it will shift assignment grades****
- Make sure the Delete Assignments at Year End are checked.
- Check Rounding Grades
- Check Blank Grades as Zero

4. Under the My Preps Tab

• Click the Add Button
